

QUICK INSTALLATION GUIDE

For Windows XP or Later

Estimated Completion Time: 5-15 minutes

1. VERIFY WINDOWS.NET INSTALLATION

- Go to “Add Remove Programs” or “Programs and Features” (depending in Windows version) in Control Panel
- Find your Windows.NET installation
- If version is less than 2.0, download latest .NET version found at www.microsoft.com/net

2. INSTALL DRIVERS & POCKETPICO READER APPLICATION

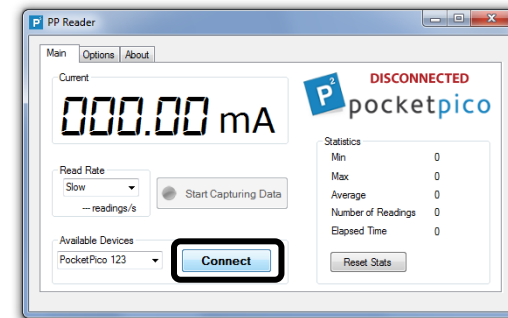

- Download latest installation setup file at www.pocketpico.com/support
- Locate and run setup.exe
- Click ‘Next’
- Read and accept license agreement
- Select installation destination
- Close the installation wizard

3. CONNECT POCKETPICO

- Connect the PocketPico via USB to the computer
- If the new hardware wizard appears, select the option to have Windows automatically find the driver
- If you see a Windows Logo Testing screen, select “Continue Anyway”

4. LAUNCH THE POCKETPICO READER APPLICATION

- Click ‘Connect’ to begin taking reading

TECHNICAL SUPPORT

For more information on using the PocketPico, review the instruction manual available at www.pocketpico.com/support.
